Discourse in Content and Language Integrated Learning (CLIL) Classrooms Christiane Dalton-Puffer, 2007 The label CLIL stands for classrooms where a foreign language English is used as a medium of instruction in content subjects This book provides a first in depth analysis of the kind of communicative abilities which are embodied in such CLIL classrooms It examines teacher and student talk at secondary school level from different discourse analytic angles taking into account the interpersonal pragmatics of classroom discourse and how school subjects are talked into being during lessons The analysis shows how CLIL classroom interaction is strongly shaped by its institutional context which in turn conditions the ways in which students experience use and learn the target language The research presented here suggests that CLIL programmes require more explicit language learning goals in order to fully exploit their potential for furthering the learners appropriation of a foreign language as a medium of learning

The Roles of Language in CLIL Ana Llinares, Tom Morton, Rachel Whittaker, 2012-03-15 This book provides a theoretically based approach to the integration of language and content in primary and secondary contexts Drawing on their wide experience as CLIL educators

and researchers the authors explore data collected in real CLIL classrooms from two interrelated perspectives the CLIL classroom as an interactional context for developing language and content and the genres and registers through which the meanings of the different academic subjects are enacted From the analysis of this corpus of data the authors provide a rich description of how CLIL students language works and may be expected to develop Also available separately as a hardback

Applied Linguistics Perspectives on CLIL Ana Llinares, Tom Morton, 2017-03-16 This book represents the first collection of studies on Content and Language Integrated Learning CLIL which brings together a range of perspectives through which CLIL has been investigated within Applied Linguistics The book aims to show how the four perspectives of Second Language Acquisition SLA Systemic Functional Linguistics SFL Discourse Analysis and Sociolinguistics highlight different important aspects of CLIL as a context for second language development Each of the four sections in the book opens with an overview of one of the perspectives written by a leading scholar in the field and is then followed by three empirical studies which focus on specific aspects of CLIL seen from this perspective Topics covered include motivation the use of tasks pragmatic development speech functions in spoken interaction the use of evaluative language in expressing content knowledge in writing multimodal interaction assessment for learning L1 use in the classroom English medium instruction in universities and CLIL teachers professional identities *Assessment and Learning in Content and Language Integrated Learning (CLIL) Classrooms* Mark deBoer, Dmitri Leontjev, 2020-11-17 This volume builds a conceptual basis for assessment promoting learning in Content and Language Integrated Learning CLIL classrooms and proposes practical assessment approaches and activities that CLIL teachers can apply in the classroom CLIL as an educational context is unique as language and content learning happen simultaneously The efficacy of such instruction has been studied extensively but assessment in CLIL classrooms has drawn much less attention The present volume aims to fill this gap Arranged based on different ways that content and language are integrated in CLIL the chapters in this book together build a solid theoretical basis for assessment promoting learning in CLIL classrooms The authors discuss how assessment eliciting this integration yields insights into learners abilities but more importantly how these insights are used to promote learning The contributors to the volume together build the understanding of classroom based assessment as cyclic of teaching learning and assessment as inter related and of content and language in CLIL classrooms as a dialectical unity This volume will spark interest in and discussion of classroom based assessment in CLIL among CLIL educators and researchers enable reflection of classroom assessment practices and foster collaboration between CLIL teachers and researchers The assessment approaches and activities discussed in the volume in turn will help educators understand the scope of applications of assessment and inspire them to adapt these to their own classrooms *The Routledge Handbook of Educational Linguistics* Martha Bigelow, Johanna Ennser-Kananen, 2014-08-13 The Routledge Handbook of Educational Linguistics provides a comprehensive survey of the core and current language related issues in educational contexts Bringing together the expertise and voices of

bring together research that investigates discourse in various instructional settings namely those of primary secondary and university L2 learning environments content and language integrated contexts and other new language learning settings The number and variety of languages involved both as the first language e g English Finnish Basque Spanish Japanese French Italian Catalan as well as the target foreign language e g English French Italian Japanese Spanish makes the volume specially attractive Additionally the different approaches adopted by the researchers participating in this volume such as information processing sociocultural theory or conversation analysis widen the realm of investigation on discourse and language learning Finally the strength of the volume also lies in the range of educational settings primary secondary and tertiary education and the worldwide representation of contributors across seven different countries namely those of Spain France Austria Finland Germany Canada Australia and the United States The uniqueness of the volume is due to its eclectic and comprehensive nature in tackling instructional discourse Worldwide outstanding researchers like Julianne House Carme Mu oz Ute Smit Tarja Nikula or Roy Lyster to quote but a few adopt different perspectives in this joint contribution that will certainly broaden the scope of research on language learners discourse
