A mnemonic is a memory device used to recall a variety of things, including a list of items or the steps required to complete a task. For example, Please Excuse My Dear Aunt Sally (Parenthesis Exponents Multiplication Division Addition Subtraction) is used to help remember the order in which to complete mathematical operations.

Create a mnemonic for the six steps of the policymaking process. Then explain which step in the process you think is the most important and which is the least important.

### PROCESSING

Now that you have looked more closely at political parties and their function in government, choose the political party that you would like to be affiliated with. If you haven't already registered to vote, obtain a voter registration form (or a pre-registration form, if you are not yet 18) from your local town or city hall.

Once you have selected a party or chosen to register as an independent with no party affiliation, answer these questions:

- Why did you choose your particular affiliation?
- Why are parties important in government?
- What can parties do for you? For society?
