[Peacebuilding and Sustainable Human Development](#) Ayesah Uy Abubakar, 2019-01-07 This book presents the protracted right to self determination conflict between the Philippine state and the Bangsamoro group in Mindanao Philippines In the five decades of attempts to achieve peace a key element is the Bangsamoros search for a kind of development that is compatible with their aspirations for freedom and their future This book presents a study of the

Bangsamoro communities and their social constructions of conflict peace and development It examines the viability of the sustainable human development framework for application in their challenging realities The usefulness of the sustainable human development framework lies not only in its use of human development parameters like the Human Development Index It also provides an approach towards development that synergizes with the sustainable peace framework an imperative for Mindanao At the centre of this approach is the Participatory Rural Appraisal and Participatory Learning and Action methodology for eliciting responses stimulating discussion documenting verbal and non verbal ideas and carrying out small scale projects to demonstrate community participation The book concludes with two main points that a both sustainable human development and peacebuilding are mutually reinforcing frameworks aimed at achieving the same human development goals and b the pursuit of the right to self determination is enhanced as both frameworks are combined to provide a context for the attainment of peace in Mindanao
