*TRIZICS* Gordon Cameron, 2010 TRIZ first emerged from the former Soviet Union in the 1990s TRIZ is the Russian acronym for Theory of Inventive Problem Solving TRIZ is a set of tools for directing creative thinking based upon the study of patents Breakthrough thinking is not left to creative inspiration Instead new and innovative ideas that solve simple to highly complex technical problems or create new inventions can be systematically derived TRIZICS is an organized process for the practical application of TRIZ it incorporates TRIZ tools into a simple step by step framework that includes the logic of structured problem solving leverages TRIZ tools for root cause analysis and directs the user to select the appropriate TRIZ tool to use during the problem solving process Reviews [http://kipanet.org/sites/default/files/July\\_2011.pdf](http://kipanet.org/sites/default/files/July_2011.pdf) Published in the Knowledge Information Professional Association Volume 2 Issue 4 July 2011 The author of the review concludes As an innovation professional I have headed R D departments produced patents and invented my share of stuff I have participated in many brain storming lateral thinking and problem solution courses I am not given to hyperbole Cameron's book a comprehensive guide to invention and problem solution is the best I have ever seen bar none Its contents will easily support a full year course in invention knowledge creation at the university level A rich source of information it will require careful study reading and re reading to master its contents However it is worthy of the effort TRIZICS is the new quintessential resource for creative problem solving and invention Joe Colannino Published in the LinkedIn Group TRIZ Innovators Innovation Tool Expert Network of Innovative People Sept 2011 I fully agree with the reviewer's comments the book is not only the most lucid and informative book on TRIZ I have read Most importantly it clarifies when and when not to use the TRIZ methods in a way that is clear and obvious immediately after reading but must have taken you years of groping with the various methods to formulate This clarity is achieved by first categorising problems into 4 types and I believe this critical original thinking of problem categorisation is as simple but yet as profound as Deming's type I and Type II causes or Ohno's 7 wastes I mightn't read Deming or Ohno every day but every time I'm faced with a tricky problem their key insights are at the core of my thinking approach and I have now added your 4 problem types to this profound core Congratulations on producing a guide that anyone can follow with a bit of effort to scale the TRIZ Everest to Base Camp in a week and all the way to the summit with the assurance of having a Sherpa guide and provided they are prepared to put in the necessary work Mike Posted by Mike McMenamin See [www.AMAZON.com](http://www.AMAZON.com) for more reviews of TRIZICS

**Ariz Explored** Gordon Cameron, 2015-08-04 Through the study of large numbers of patents Genrich Altshuller created TRIZ the Theory of Inventive Problem Solving TRIZ is a set of tools for thinking that direct the user to inventive solutions based on the study of how innovative solutions have been created in the past Altshuller believed that around 85% of inventive problems could be solved using the standard tools of TRIZ However the most difficult problems required the application of the ARIZ algorithm ARIZ is the core algorithm of TRIZ known as the Algorithm for the Solution of Inventive Problems Unfortunately ARIZ is often avoided by TRIZ users because it has a reputation of being difficult to understand and apply Typically ARIZ is taught as a set of instructions for the user to perform and no explanation of the problem solving mechanisms at play is provided and so the user does not understand how it works It is the intention of this book to provide a step by step template with examples and explanations to help users better understand ARIZ to increase its frequency of use and lead to more breakthrough solutions and inventions In this book we use version ARIZ 85C as a basis for our exploration of ARIZ ARIZ 85C was the last official version approved by Altshuller it is the accepted standard and considered to be a masterpiece of Altshuller
