Such challenges can include technological developments, market conditions, and reduction in global trade barriers, though these factors are continuously changing. Determining the correct course of action can be difficult depending on the goals of the company. *Trends and Issues in International Planning for Businesses* is an essential reference source that focuses on key external and internal factors that enable or disable the creation and enhancement of success opportunities for firms that wish to expand internationally. Making Habits, Breaking Habits Jeremy Dean, 2012-06-12 An accessible and informative guide for readers to take control of their lives. Publishers Weekly: Habits are more powerful than willpower if you know how to make them work for you. How long does it take to form a new habit? Say you want to go to the gym regularly, learn a new language, make new friends, practice a musical instrument, or use your work time more profitably. How long should it take before these become part of your routine rather than something you must force yourself to do? The unexpected answers are found in *Making Habits, Breaking Habits*, a psychologist's eye-opening examination of one of the brain's most powerful processes. Drawing on the latest research, Jeremy Dean explains why seemingly easy habits like eating an apple a day can prove difficult to form and how to take charge of your brain's autopilot to make any change stick. Witty and intriguing, provocative and practical, *Making Habits, Breaking Habits* shows how behavior is more than just a product of what you think. It is possible to bend your habits to your will and be happier, more creative, and more productive. Making changes does take longer than we may expect: no 30-day, 30-pounds lighter quick fix, but by following the guidelines laid out by Dean, readers have a decent chance at establishing fulfilling new patterns.
