

# Cooling Theory Lectures Notes

Markus Hupfer and members of the team!

September 7, 2024

These are the notes for the first lecture. I have not gone through and given feedback on all of the content given, but for the presentation, with thanks to the authors, the clarity of the notes on Cooling Theory and the work of Hoffman and Pines (particularly at the University of Cambridge) is also well covered. Some writing by Hoffman, Pines and Pines is Part II content given at Cambridge on Cooling Theory and Crystallization given by Professor Pines, and the rest given after that at Cambridge that is subsequent to the Hoffman and Pines work. I also included some more recent work in the Applied Math for the Phys. Department. The last section of the notes is based on the Hoffman and Pines work, "Single Phase Crystals".

All credits go to those who did the work.
