Sap Engineering Change Management:

Product Lifecycle Management Enabling Smart X Felix Nyffenegger, José Ríos, Louis Rivest, Abdelaziz

Bouras, 2020-11-19 This book constitutes the refereed post conference proceedings of the 17th IFIP WG 5.1 International Conference on Product Lifecycle Management PLM 2020 held in Rapperswil Switzerland in July 2020. The conference was held virtually due to the COVID-19 crisis. The 60 revised full papers presented together with 2 technical industrial papers were carefully reviewed and selected from 80 submissions. The papers are organized in the following topical sections: smart factory, digital twins, Internet of Things (IoT), IIoT, analytics in the order fulfillment process, ontologies for interoperability, tools to support early design phases, new product development, business models, circular economy, maturity, implementation and adoption, model-based systems, engineering, artificial intelligence in CAx, MBE and PLM, building information modelling, and industrial technical contributions.

Artificial Intelligence in Management Jana M. Würtele, 2025-01-31

In an era of constant global change, companies are challenged to adapt quickly to evolving consumer demands and technological innovations. However, the complexity of product changes in the medical technology industry is particularly high. Leveraging the expertise of interview partners from Germany, Switzerland, Liechtenstein, and India, this book examines the perception of digital transformation within the medical technology industry and the increasing prominence of artificial intelligence as a transformative force. Thus, it provides a critical analysis of the potential opportunities for optimization and risks of integrating this technology into product change management in this sector, offering a comprehensive perspective for management practice.

Manufacturing Finance with SAP ERP Financials Subbu Ramakrishnan, 2009

This book provides a comprehensive overview of the application of ERP Financials to the make-to-stock and make-to-order manufacturing process models. It is designed to provide valuable solutions and configuration/integration options that readers can use and apply directly in their daily activities. For Finance users, the book covers the standard business drivers and KPIs as they apply to each model and lends guidance for configuring Financial Accounting and Controlling to maximize functionality for manufacturing finance. Implementation managers and consultants will benefit from the coverage of integrating ERP Financials with other SAP applications such as PP and MM, as well as the configuration sections for Master Data, Cost Object, Controlling, and the Information System, among others. Readers from both functions will be able to make use of the numerous screen shots, configuration steps, best practice examples, and tips for system customization. Acknowledging the differences between the two primary manufacturing process models, the book is divided into three sections after an introductory chapter covering information generic to manufacturing models supported in SAP. Part I of the book covers the Make-to-Stock model.

and comprises the bulk of book Part II covers the Make to Order model Part III provides a chapter filled with ready to use checklists and guides for budgeting and closing activities and a chapter on the application of SAP Financial Performance Management FPM formerly CPM to the manufacturing finance scenario *InfoWorld* ,2003-05-05 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects
