United States. Army Air Forces, 1947 **The Untold Story of China's Nuclear Weapon Development and Testing** Hui
Zhang, 2025-11-25 A comprehensive technical history of China's nuclear warhead development and testing as well as a new
framework for understanding China's efforts to modernize its nuclear arsenal The Untold Story of China's Nuclear Weapon
Development and Testing offers the most comprehensive account of China's nuclear weapons development from 1955 to
1996 Hui Zhang examines the purpose and technical specifics of each nuclear test and provides new details about China's
pursuit of warhead miniaturization Based on a number of new Chinese language sources that have not previously been
analyzed this book reveals that China has the ability to produce smaller lighter warheads than some have suggested as well
as more options for missiles that could carry a larger number of warheads The book also provides a new framework for
understanding China's efforts to modernize its nuclear arsenal and offers clues about the future of China's nuclear program
As the international community watches China's rapid nuclear expansion with concern and in particular as the United States
considers whether it will be confronting two peer nuclear armed adversaries Russia and China in the future this book is a
significant contribution to the policy debate over a potential new three way nuclear arms race *ASVAB Premier 2017-2018*
