Difference Sets, Sequences and their Correlation Properties A. Pott, V Kumaran, Tor Helleseth, Dieter Jungnickel, 1999-09-30 The explanation of the formal duality of Kerdock and Preparata codes is one of the outstanding results in the field of applied algebra in the last few years This result is related to the discovery of large sets of quad riphase sequences over  $Z_4$  whose correlation properties are better than those of the best binary sequences Moreover the correlation properties of sequences are closely related to difference properties of certain sets in cyclic groups It is the purpose of this book to illustrate the connection between these three topics Most articles grew out of lectures given at the NATO Advanced Study Institute on Difference sets sequences and their correlation properties This workshop took place in Bad Windsheim Germany in August 1998 The editors thank the NATO Scientific Affairs Division for the generous support of this workshop Without this support the present collection of articles would not have been realized *Studying Correlations between Genetic Variation and Test Score Gaps* Gregory Connor, John G.R. Fuerst, 2024-02-07 This book is an edited collection of recently published papers on the sources of average test score gaps when analysed through the lenses of race and ethnicity socio economic status and biogeographic ancestries such as European African and East Asian ancestry It brings together exciting recent findings that rely on powerful DNA based methods developed in the last few decades The book also considers the public policy question as to whether and how these findings should be disseminated to the general public audience
