

ELEMENTS OF A GRID

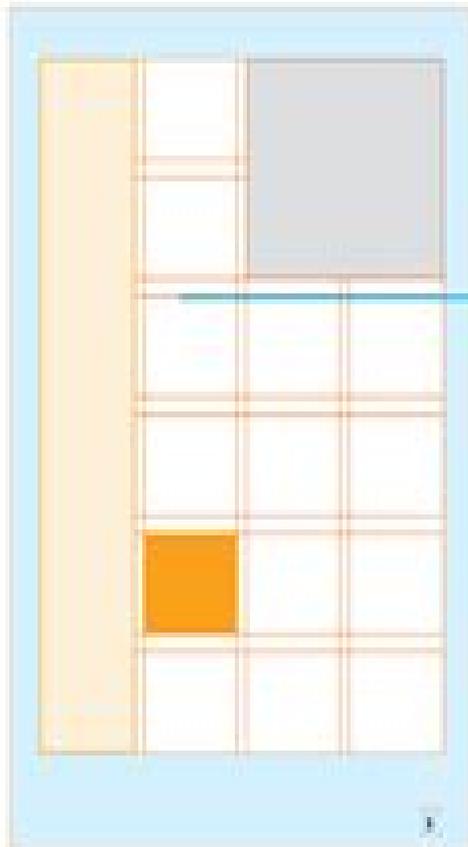

1. Know the Components

The main components of a grid are margins, columns, columns, leading, tracking, gutter lines, and baselines. Starting with a page that is four pages wide and four pages high, let's see how you might use these elements to create a grid.

MARGINS are vertical columns that define the space between the text and the edges of the page. The width and number of margins on a page or across the entire spread are determined by the content.

MODULES are individual elements, typically, repeated across a grid. Consistent modules can create interest and ease of reading.

MARGINS are the space between the text and the page content. Margins can be used to create a hierarchy of information, such as text and images.

MARGINS are groups of columns or rows that are used to define the space between the text and the edges of the page.

BASELINES are elements that define the vertical position of the text. Baselines are used to create a consistent vertical alignment.

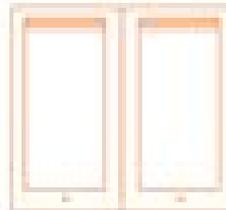

MARGINS are the space between the text and the page content. Margins can be used to create a hierarchy of information, such as text and images.

BASIC GRID DIAGRAMS

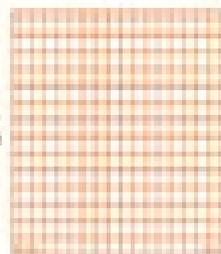

2. Learn the Basic Structures

Although the diagrams below show common structures, there are additional variations on the basic configurations. The illustrations guide the designer and help them understand how to use the grid.

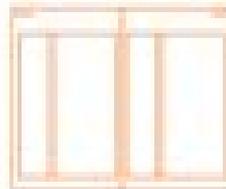

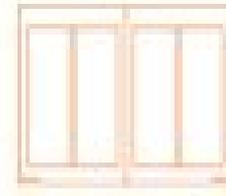

1 COLUMN GRID is a simple grid for a single column of text. It is used for a single column of text, such as a newspaper, magazine, or book. The width of the column is determined by the page width and the number of columns.

MARGINS are used to define the space between the text and the edges of the page. The width and number of margins are determined by the content.

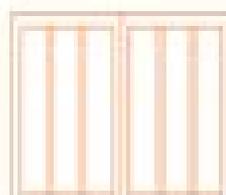

2 COLUMN GRID is a simple grid for two columns of text. It is used for two columns of text, such as a newspaper, magazine, or book. The width of the columns is determined by the page width and the number of columns.

MARGINS are used to define the space between the text and the edges of the page. The width and number of margins are determined by the content.

3 COLUMN GRID is a simple grid for three columns of text. It is used for three columns of text, such as a newspaper, magazine, or book. The width of the columns is determined by the page width and the number of columns.

GRID OF MARGINS

- What is the width of the margin?
- How many columns are there?
