[Introduction to Corporate Governance in Australia](#) Gregory E. P. Shailer, 2004 As the author comments in the Introduction to this book, Corporate Governance is currently a popular topic with regulators, investors, company directors, and executives, commentators, and academics, but this is not just a recent phenomenon. While current interest may be largely a response to major cases of company failure and managerial misconduct, many of the basic issues involved were of concern when limited liability companies were first invented and have been revisited at other times in history. This text offers a very concise introduction to the principles of corporate governance for those wishing to understand the main issues affecting corporate governance in relation to publicly traded corporations. It provides a general overview of the origins and nature of this type of corporation, its stakeholders, the general principles of governance, and how they apply to corporations, and a brief discussion of Australian as well as international developments that affect Australian companies. The approach adopted in *An Introduction to Corporate Governance in Australia* emphasises understanding the nature of the entity being governed and how the general principles of governance apply to such an entity.

Corporate Governance in Latvia - Does It Follow the Pattern of the U.S.? Ausra Liepinyte, 2010-10-22 Seminar paper from the year 2010 in the subject Politics Region Russia grade 4 8 University of Basel WWZ course Seminar CG language English abstract

Corporate Governance CG is an often discussed theme especially in Western Europe and in the U S after the financial crisis 2007 2010 However in Latvia which suffered the most in the European Union EU from the economic crisis this is seemingly not a subject of debates This poses the question whether Latvia is an emerging market in the sense of the development of CG Therefore I chose to look at this issue more closely The U S CG system influences the most important national CG systems in the world and as there is a lot of research done on the CG in the U S it seems to be interesting to compare the development of the CG in the U S with that in Latvia The fact that CG is getting a more and more important issue in Latvia is shown e g in the foundation of the Baltic Institute of Corporate Governance in 2009 The Institute's aim is to promote development of responsible CG in the Baltic States As it is a new organisation it does not yet have any publications on CG in the Baltic States released In addition there is actually no up to date research on CG in Latvia In 2002 the World Bank conducted the Corporate Governance Assessment based on the OECD principles of CG There is the recently in 2009 published book Corporate Governance in Transition Economies edited by R W McGee It contains also an article on CG in Latvia which in fact is a summary of the CG assessment by the World Bank in 2002 Regarding all the aspects mentioned above the analysis of CG in Latvia provides a very interesting research area as it has been insufficiently researched until now Moreover a comparison

with a well established CG system like that in the U S could be a source of useful information and recommendations for Latvia s companies
