Introduction: Designing Research in Political Science - a Dialogue Between Theory and Data Thomas Gschwend, Frank Schimmelfennig, 2007

Heuristic Inquiry Nevine Sultan, 2018-04-27 Focused on exploring human experience from an authentic researcher perspective Heuristic

Inquiry Researching Human Experience Holistically presents heuristic inquiry as a unique phenomenological experiential and relational approach to qualitative research that is also rigorous and evidence based Nevine Sultan describes a distinguishing perspective of this research that treats participants not as subjects of research but rather as co researchers in an exploratory process marked by genuineness and intersubjectivity Through the use of real life examples illustrating the various processes of heuristic research the book offers an understanding of heuristic inquiry that is straightforward and informal yet honors its creative intuitive and poly dimensional nature

Soft Power Hendrik W. Ohnesorge,2019-11-22 This book explores the phenomenon of soft power in international relations In the context of current discourses on power and global power shift s it puts forward a comprehensive taxonomy of soft power and outlines a methodological roadmap for its empirical study To that end the book classifies soft power into distinct components resources instruments reception and outcomes and identifies relevant indicators for each of these categories Moreover the book integrates previously neglected aspects into the concept of soft power including the significance of political personalities A broad range of historical examples is drawn upon to illustrate the effects of soft power in international relations in an innovative and analytically differentiated way A central methodological contribution of this book consists in highlighting the value of comparative historical analysis CHA as a promising approach for empirical analyses of the soft power of different actors on the international stage By introducing a comprehensive taxonomy of soft power the book offers an innovative and substantiated perspective on a pivotal phenomenon in today s international relations As the forces of attraction in world politics continue to gain in importance it provides a valuable asset for a broad readership This book was the winner of the 2021 ifa German Institute for Foreign Cultural Relations Research Award on Foreign Cultural Policy In this important and thoughtful book Hendrik Ohnesorge explains and advances our knowledge of the ways that soft power public diplomacy and charismatic personal diplomacy are shaping the international relations of our global information age Joseph S Nye Jr Harvard University and author of The Future of Power

Case Studies and Theory Development in the Social Sciences Alexander L. George,Andrew Bennett,2005-04-15 The use of case studies to build and test theories in political science and the other social sciences has increased in recent years Many scholars have argued that the social sciences rely too heavily on quantitative research and formal models and have attempted to develop and refine rigorous methods for using case studies This text presents a comprehensive analysis of research methods using case studies and examines the place of case studies in social science methodology It argues that case studies statistical methods and formal models are complementary rather than competitive The book explains how to design case study research that will produce results useful to policymakers and emphasizes the importance of developing policy relevant theories It offers three major contributions to case study methodology an emphasis on the importance of within case analysis a detailed discussion of process tracing and development of the concept of typological theories Case Studies and Theory Development in the Social Sciences will be particularly useful to graduate students and scholars in social science

methodology and the philosophy of science as well as to those designing new research projects and will contribute greatly to the broader debate about scientific methods
