
Shadow Health - Tina Jones, Health History Questions and Answers 2023

Health History Tips & Tricks: - ANSWER-

Student: Hello! - ANSWER-Diana Shadow: Hi. I'm Preceptor Diana. I will explain the details of this assignment and your objectives, just as a preceptor would in real life. Pay close attention to this information as it will help guide your exam. At the end of this prebrief, you will answer a short question about the upcoming assignment. During the simulation, you may return to these instructions at any time by scrolling to the top of your transcript.

Student: What is the situation? - ANSWER-Diana Shadow: Your patient is Tina Jones, a 28-year-old African American woman who has just been admitted to Shadow General Hospital for a painful foot wound. Your role in this simulation is that of a healthcare provider who will take Ms. Jones' health history, a key component of her admission process.

Student: What are my objectives in this assessment? - ANSWER-Diana Shadow: A health history requires you to ask questions related to Ms. Jones' past and present health, from her current foot wound to her pre-existing conditions. You will also want to review Ms. Jones' systems, psychosocial history, and family medical history. These assessments together will give you a comprehensive picture of Ms. Jones' overall health. If you discover any disease states, ask about symptoms and the patient's experiences of them. Your questioning should cover a broad array of the symptoms' characteristics. Throughout the conversation, you should educate and empathize with Ms. Jones when appropriate to increase her health literacy and sense of well-being. Regardless of whether you have assessed Ms. Jones previously, ask all questions that are necessary for obtaining a complete health history. While you should communicate with patients using accessible, everyday language, it is standard practice to use professional medical terminology everywhere else, such as in documenting physical findings and nursing notes. You may complete the exam activities in any order and move between them as needed. After obtaining Ms. Jones' health history, you will complete an information processing activity. You will identify and prioritize diagnoses, then create a plan to address the identified diagnoses.

Student: What else will this exam involve? - ANSWER-Diana Shadow: You will complete nursing tasks to protect the patients safety, privacy, and health. You can document your findings, including vital signs, in the Electronic Health Record. This record provides necessary information for healthcare professionals who will continue patient care. Besides Subjective Data Collection, and Education and Empathy, there are activities within the simulation that provide valuable practice for their real-world counterparts, but they are not automatically graded by the simulation.

50 Vetoes Michael F. Cannon,2013-03-27 The Patient Protection and Affordable Care Act PPACA remains vulnerable to repeal largely because Congress and the Supreme Court have granted each state the power to veto major provisions of the law before they take effect in 2014 The PPACA itself empowers states to block the employer mandate to exempt many of their low and middle income taxpayers from the individual mandate and to reduce federal deficit spending simply by not establishing a health insurance exchange To date 34 states have refused to create Exchanges and some 16 states have announced they would not expand their Medicaid programs Yet the Obama administration is trying to coerce states into implementing parts of the expansion that the Court rendered optional This special White Paper provides a comprehensive review of the process now occurring between states and the Obama Administration underscoring how a critical mass of states exercising their vetoes over Exchanges and the Medicaid expansion can force Congress to reconsider and hopefully repeal the rest of the PPACA
