

Madrasa Teacher Inspired Pakistani-American to Transform Medical Education Online

Inspired by a madrasa teacher in Islamabad, Pakistani-American Dr. Husain Sattar is revolutionizing medical education in a similar way that Salman Khan of [Khan Academy](#) has transformed K-12 education. Dr. Sattar has written a widely used medical textbook titled "Fundamentals of Pathology" along with a [series of videos](#) called [Pathoma](#) available online.

University of Chicago Professor:

Currently an Associate Professor at the University of Chicago Pritzker School of Medicine, Dr. Sattar credits his innovation to his madrasa teacher who had the "ability to take vast amounts of information and summarize it in the most eloquent, simple, principle-based method", according to a piece written by Nancy Averett and published on the [University of Chicago website](#).

Professor Husain Sattar M.D.

Madrasa Education:

Born in Chicago in 1972, [Dr. Husain Sattar, MD](#), took a leave of absence after first year of medical school in the United States to study Arabic and Islamic spirituality in

Medical School J. Taylor Shortsleeve MD,2022-12-19 Have you ever wondered what medical school is like Do you wish you had something to help you weigh the options between medical school a doctorate degree or some other field of work Do you want to know more about what to expect in medical school so that you can tailor your resume and applications toward a reality rather than an expectation In this book Taylor goes through the process of getting into medical school to graduating from it He explains the physical steps involving the courses you ll take to the board exams you ll study for He explores the emotions involved in each step and what transformations occur as you collect new experiences along the way He tells you what it takes and explains the various benefits and drawbacks of MD versus DO U S versus Caribbean and doctor versus other positions within healthcare Inspiration for the book arose from Taylor s experience with the lack of tangible resources available to high school and college students while thinking about and applying to medical school After graduating in March of 2020 and starting his career in the COVID 19 ICU he set out to make sure the next generation of medical students has a better understanding of the process before committing themselves to a singular track Medical school is a great option for those who understand what it takes and what to expect For many it takes people by surprise Patients need doctors who are lively enriched in their work and engaged with one another in collegial spirit The best way to become the best doctor is to know about the process before it takes you by surprise

Technologies in Biomedical and Life Sciences Education Harry J. Witchel,Michael W. Lee,2022-06-24 This contributed volume focuses on understanding the educational strengths and weaknesses of mediated content including media as a learning supplement in comparison to traditional face to face learning Each chapter includes research on and a broad brush summary of approaches to combining life sciences education with educational technologies The chapters are organized into four main sections each of which focuses on a key question regarding the consequences of incorporating media into education In this regard the authors highlight how educational technology is both a bridge and barrier to student access and inclusivity Further they

address the ongoing discussion as to whether students need to be present for lectures and on how having agency in their own learning can improve both retention and conceptual understanding To link the content to current events the authors also shed light on the impact that the COVID 19 pandemic is having on the continuity of educational programs and on the growing importance of educational technologies Consequently the book offers life science educators valuable guidance on the technologies already available and an outlook on what is yet to come *Кхмерско-русский словарь* I[?]rii Aleksandrovich Gorgoniev,1975 [Building Health Sciences Library Collections](#) Megan Inman,Marlena Rose,2023-07-03 Selected as a 2025 Doody s Core Title Collection development is a cornerstone of librarianship and with the rapid pace that library materials are produced a thorough knowledge of collection development is more important than ever before However with the myriad of choices available creating a meaningful collection can be a daunting task Building and maintaining a health sciences library collection can be a challenge especially in scenarios where there is no dedicated collection services department or collection development librarian Often in library school curriculum collection development strategies are discussed but specific examples of bibliographic sources may not be covered in detail particularly for health sciences resources Many collection development books often discuss the creation of policies budgeting practices and usability This book is a comprehensive reference guide for those who will be creating and curating their library health sciences collections Moving beyond a traditional list of titles this guide will focus on several formats and areas It features specific bibliographic information for top resources for a variety of subject areas and in a variety of formats This book is designed for all librarians whether new or experienced Each chapter of this title does a deep dive into an area of health sciences library collection building as well as covering how to maintain a current collection This book is designed to provide readers with a resource to lean on in determining the best bets in providing their users with health sciences resources to support curriculum practice and other user needs Readers who are interested in gleaning techniques for maintaining their health sciences library collection will also benefit from this how to guide as it details the deselection process Every health sciences librarian no matter their experience can benefit from this reference guide **South East Asia Research** ,2006 **First Aid for the USMLE Step 1 2018, 28th Edition** Tao Le,Vikas Bhushan,Matthew Sochat,Yash Chavda,Andrew Zureick,2017-12-21 Publisher s Note Products purchased from Third Party sellers are not guaranteed by the publisher for quality authenticity or access to any online entitlements included with the product SCORE YOUR HIGHEST ON THE USMLE STEP 1 WITH HELP FROM THE WORLD S MOST POPULAR MEDICAL REVIEW BOOK An unmatched collection of more than 1 300 must know facts and mnemonics provide a complete framework for your USMLE preparation and coursework This annually updated review delivers a comprehensive collection of high yield facts and mnemonics that pinpoint exactly what you need to know to pass the exam Co authored by medical students who recently took the boards it provides a complete framework to help you prepare for the most stressful exam of your career Here s why this is the ultimate USMLE Step 1 review A complete
