PDF eBook** Justin Basini,2011-11-09 [The Birmingham Book](#) Colin Diamond CBE,2022-07-11 The Trojan Horse affair sent shock waves across England s education system in 2014 The affair centred around an anonymous letter that contained instructions on how to take over schools with a majority Muslim population by influencing their governing bodies and undermining head teachers The authenticity of the letter remains hotly disputed yet its publication generated huge turbulence not only in Birmingham s schools and communities but also in both Parliament and the national news The book offers fresh perspectives based on unique access to information from within the city written by respected educationalists who have worked successfully in Birmingham for many years both during the Trojan Horse era and since It explains what led to the publication of the letter its profound consequences for education in Birmingham and how it influenced events in the city since Crucially the book also opens up an informed discussion around the issues raised during Trojan Horse such as delivering a well rounded curriculum suitable for a diverse school community developing working partnerships in the local area and boosting the attainment and aspirations of children from disadvantaged backgrounds Colin shares case studies of

school improvement in local and national MATs in tough multicultural urban environments and how schools worked to develop pupils social capital The Birmingham Book reveals how the Trojan Horse affair was handled by the Department for Education as their academies and free schools policies underwent their first major stress tests Furthermore the book provides an up to date appraisal of the interrelationship between education in England s schools and the cultural and religious practice of the local communities the schools serve and of the underachievement levels of the different ethnic groups in Birmingham Suitable for teachers school leaders governors and policymakers *Situating Equity at the Center of Continuous Improvement in Education* Erin Anderson,Angel Yee-lam Li ,Brandi Hinnant-Crawford,2026-02-16 This Research Topic is about equity centered improvement in education Equity means every child gets what they need to actualize their full potential in their academic and social life as defined by the National Equity Project In theory to center equity in continuous improvement including improvement science efforts educators can identify a problem of practice with inequity at the core of the problem and develop and test a theory of improvement to redress that inequity and arrive at equitable outcomes Centering equity can also mean ensuring the continuous improvement process itself is equitable In practice it is often unclear how equity centered improvement is implemented and if making the improvement process equitable translates into equitable outcomes If we conceptualize equity centered improvement as a lever in school reform what is the aim that educators should work towards How might this lever be operationalized in research and practice What might be the theory that guides the emerging field of continuous improvement in education The goal of this Research Topic is to arrive at a shared definition of equity centered improvement and create boundary objects that connect researchers and practitioners in their pursuit of equity through the study and use of continuous improvement methodology The literature in continuous improvement in education has focused on mechanism and impact And when connection to equity is made it is often about leveraging improvement principles processes and tools to achieve equitable outcomes Exploration of infusing equity into the process of improving is in infantile stage Although some schools of thought argue that continuous improvement is intrinsically equity centered others raise doubts and concerns about this assumption and warn that an equity focus has to be made explicit in improvement work to avoid further perpetuation of inequity This Research Topic seeks to contribute to this debate We welcome submissions from across the globe that align with our goal and examine the why what and or how of equity centered improvement The methodology used can be conceptual qualitative quantitative or mixed We particularly encourage submissions that focus on the following topics Equitable development and use of measurement and data infrastructure roles processes tools in support of continuous improvement Social conditions that foster the progression initiation implementation and institutionalization of equity centered improvement and ways to cultivate such conditions Hindering forces individual organizational societal political and cultural that influence the progression of equity centered improvement and ways to counter such resistance and Conceptualization and operationalization of equity centered
