## High Elves Wordpress:

*Fiction, Invention and Hyper-reality* Carole M. Cusack, Pavol Kosnáč, 2016-11-18 The twentieth century was a period of rapid change for religion. Secularisation resulted in a dramatic fall in church attendance in the West and the 1950s and 1960s saw the introduction of new religions including the International Society for Krishna Consciousness ISKCON, the Church of Scientology and the Children of God. New religions were regarded with suspicion by society in general and Religious Studies scholars alike until the 1990s when the emergence of a second generation of new new religions based on popular cultural forms including films, novels, computer games and comic books and highly individualistic spiritualities confirmed the utter transformation of the religio-spiritual landscape. Indeed, Scientology and ISKCON appeared almost traditional and conservative when compared to the radically de-institutionalised, eclectic, parodic, fun-loving and experimental fiction-based invented and hyper-real religions. In this book, scholarly treatments of cutting-edge religious and spiritual trends are brought into conversation with contributions by representatives of Dharma, the Church of All Worlds, the Temple of the Jedi Order and Tolkien spirituality groups. This book will simultaneously entertain, shock, challenge and delight scholars of religious studies as well as those with a wider interest in new religious movements.

**Tolkien, Philosopher of War** Graham McAleer, 2024-10-04 Book sales of the works of J.R.R. Tolkien keep pace with those of the Koran and the Bible. TV companies pay hundreds of millions to the Tolkien Trust to make adaptations of his work. In the UK, he routinely tops the list of the nation's favorite authors. An estimated 2 million war gamers use *The Lord of the Rings* figurines in their RPG. It is incontestable that Tolkien is the most influential Catholic writer of the last century. *Philosopher of War* fills a gap in the scholarship. It is the first book addressing the philosophical and theological understanding of war in Tolkien and will interest readers of Catholic Studies, the philosophy and theology of literature, war studies, Tolkien Studies, English studies, political theory and aesthetics. In popular imagination, Tolkien is a Luddite, but recent scholarship has identified Tolkien's extensive modern sympathies. *Philosopher of War* contributes to this growing literature. His is a modern critique of Enlightenment thinking, specifically those philosophies of history that wrest the initiative from God in divinizing man. His worry is apocalyptic politics: those political movements that take Christ's "Be ye therefore perfect, even as your Father which is in heaven is perfect" (Matt 5:48) out of the realm of grace and make it a platform for political action. *Philosopher of War* has three core theses: metaphysical, political, and aesthetic. In this, Tolkien is comparable to Cormac McCarthy, especially his *Blood Meridian*. Tolkien took note of a tight analytical connection between the vanity driving commercial civilization, which Hume, Smith, and Ferguson all identified, and the vanity driving the Promethean fantasies of apocalyptic politics. War, indeed, total war, is a predictable outcome of this analytical connection. The three theses run: 1) metaphysical: the apocalyptic anxiety of Tolkien's lore is traceable to the gnostic rejection of the analogy of being; typical of the philosophies of history that dominated his day; 2) political: in the English context, Tolkien sided with the Tories against Whiggery, defending monarchy as a

counterweight to the vanity driving progressive philosophy of history 3 aesthetic Futurism s philosophy of history celebrated the Machine inverting the value order the Futurism art movement encoded anti Christianity fascist politics and apocalyptic war Tolkien s cosmogonical drama with its pastoralism and portraits of angels Gandalf and gods Nienna dramatizes an aesthetic resistance to Futurism

**The Shadow Elf** Terry Spear, Persephone is given the mission of distracting the shadow elves who are bound to learn what is blocking their water source before they discover a space ship is sitting in the middle of their river That s how all the trouble begins Persephone is an overseer an observer and recorder of information about inhabitants of civilized worlds Only she s lost her lifemate and cannot be an overseer without one She s given a second chance if she can prove she s worthy if she can survive an inhospitable planet inhabited by elves and other mythical creatures she s only read about very little of which is known of them except that they constantly battle amongst themselves and are not civilized enough to safely observe The shadow elf Dracolin a warrior given the task of learning what is blocking their water source doesn t expect to find the most unusual creature he s ever encountered a red haired green eyed land bound mermaid That s only the beginning She understands and can speak his language falls off cliffs without injuring herself and swims like a mermaid without the fishtail Everyone is intrigued with her except some fear her uniqueness and want to destroy her That is the problem with observing uncivilized worlds

*Online Games, Social Narratives* Esther MacCallum-Stewart, 2014-06-13 The study of online gaming is changing It is no longer enough to analyse one type of online community in order to understand the plethora of players who take part in online worlds and the behaviours they exhibit MacCallum Stewart studies the different ways in which online games create social environments and how players choose to interpret these These games vary from the immensely popular social networking games on Facebook such as Farmville to Massively Multiplayer Online Roleplaying Games to Free to Play online gaming and console communities such as players of Xbox Live and PS3 games Each chapter deals with a different aspect of social gaming online breaking down when games are social and what narrative devices make them so This cross disciplinary study will appeal to those interested in cyberculture the evolution of gaming technology and sociologies of media
