

Shuffle the Deck

A pharmaceutical company is testing a new drug for diabetes patients. Due to various side-effects, they start with a very small sample, ten subjects for their first trial. The subjects take the medication with their evening meal. After the meal they test their blood sugar (mg/dL). The hope is that the blood sugar levels will be lower with the new medication. Five subjects were kept in a control group and five took the medication, randomly assigned. Here are the data.

treatment	185	163	125	151	101
control	190	175	178	135	201

Make ten slips of paper (3x5 cards work well) with each of the ten blood sugar levels written on them. Shuffle. Randomly assign five cards to the treatment group and five to control. Calculate the mean difference between the groups. Repeat. 25 times!

1. Graph the mean differences you obtained. You should have 25 such differences. Indicate on the graph the difference from the actual experiment lies.

2. What do you conclude? Is the difference observed in the experiment one that could have happened by random chance? Or does it appear that the difference is unusual and was due to the medication being administered to the five subjects?

Ap Statistics Investigative Task Chapter 26:

Medical Research in the Veterans' Administration United States. Veterans Administration, 1963 **Federal Register**, 1991 Task Force Report: the Courts United States. Task Force on the Administration of Justice, 1967 This report of the Task Force on the Administration of Justice of the President's Commission on Law Enforcement and Administration of Justice presents findings and recommendations that relate to problems facing the Nation's criminal courts. The report is not a comprehensive survey of American criminal courts or of the activities of the personnel related to them. It confines itself to those parts of the court system and those aspects of the criminal process that the Commission believes are in most need of reform. It focuses on urban courts, particularly urban lower courts. Two important non-trial aspects of the criminal process are considered in detail: the prosecutor's charge decision and the negotiated guilty plea. These administrative and largely invisible procedures now determine the disposition of most criminal cases in many urban courts. The task force also analyzes the sentencing decision, the laws under which it is made, the procedures by which it is made, and the training of the men who make it. It discusses the problems associated with the pre-trial release of defendants and explores such subjects as structural reorganization of the courts, methods for scheduling cases, and ensuring that they proceed expeditiously, and the management of jurors and witnesses. The report recognizes the importance of substantive criminal law reform and the inherent limits of effective law enforcement. Reflected in the report is the Commission's finding that a major need of many courts is more better qualified and better trained personnel. It examines the selection and training of judges and prosecutors.

THE VANISHING 'SHINING CITY ON A HILL' Patrick R. Romain, 2025-10-09 The U.S. liberal democratic capitalist system has fallen short of its pronouncements. This is evident in the notable challenges faced by the middle class whose economic and social conditions have deteriorated, leading to discontent, apathy, and a decline in public trust in the country's key institutions. Moreover, the United States has experienced a decline in its global role, influence, and reputation. Once viewed as a beacon of democracy and a leader on the world stage, even if not always merited, America's standing has been undermined by several internal and external challenges: Political polarization, an inconsistent and ineffectual foreign policy, and the absence of a unified vision have diminished allies' trust and emboldened adversaries. Critically, the U.S. media has failed in its essential role to shield the American public from abuses of power and to help establish a reliable and independent framework to identify the risks that threaten core American democratic values. I hope that by reading this book, American workers, parents, students, legislators, judges, corporate leaders, entrepreneurs, politicians, religious and spiritual leaders, financial regulators, journalists, and aspiring citizens will be reminded of America's strength and promise and recognize the significant impact that individual action or inaction has on the quality of the U.S. way of life and sustainability of its ideals. Remaining silent, disengaged, or vilifying other Americans has put our children, grandchildren, and future generations at risk. I also hope that the book's contents will in some small measure help counter the pandemic of
