The Use of Signed English in Sight Word Instruction with Elementary English Language Learners Kari Lynn Wiltse, 2009 The purpose of this study is to determine whether or not Signed English is an effective strategy for the teaching and learning of high frequency sight words for elementary English language learners ELLs Using the instructional framework put forth by Carney Cioffi Raymond this pre experimental research study utilized pre and posttests to measure the acquisition of 23 high frequency words taught to six 2nd grade English language learners over a six week period An additional week of more conventional sight word instruction was also conducted to compare the rate of acquisition of words learned through the Signed English strategy with the number of words students learned using more traditional types of instruction The results indicate that the use of Signed English seems to be an effective and engaging strategy for sight word learning for English language learners

Handbook of Orthography and Literacy R. Malatesha Joshi, P.G. Aaron, 2013-05-13 Until about two decades ago the study of writing systems and their relationship to literacy acquisition was sparse and generally modeled after studies of English language learners This situation is now changing As the worldwide demand for literacy continues to grow researchers from different countries with different language backgrounds have begun examining the connection between their writing systems and literacy acquisition This text which derives from a NATO sponsored conference on orthography and literacy brings together the research of 70 scholars from across the world the largest assemblage of such experts to date Their findings are grouped into three parts as follows Part I Literacy Acquisition in Different Writing Systems describes the relationship between orthography and literacy in twenty five orthographic systems This section serves as a handy reference source for understanding the orthographies of languages as diverse as Arabic Chinese English Icelandic Kannada and Kishwahili Part II Literacy Acquisition From a Cross Linguistic Perspective makes direct comparisons of literacy acquisition in English and other orthographic systems The overall conclusion that emerges from these eight chapters is that the depth of an orthographic system does influence literacy acquisition primarily by slowing down the acquisition of reading skills Even so studies show that dyslexic readers can be found across all orthographic systems whether shallow or deep which shows that dyslexia also has internal cognitive and biological components Part III Literacy Acquisition Instructional Perspectives explores literacy acquisition from developmental and instructional perspectives and ends with a look into the future of literacy research This Handbook is
