## **Common Threads Core Readings By Method And Theme:**

*Common Threads* Ellen Kuhl Repetto, Jane E. Aaron, Andrew C. Sparkes, Brett Smith, 2013-10-15 Qualitative forms of inquiry are a dynamic and exciting area within contemporary research in sport exercise and health. Students and researchers at all levels are now expected to understand qualitative approaches and be able to employ them in their work. In this comprehensive and in depth introductory text Andrew C Sparkes and Brett Smith take the reader on a journey through the entire qualitative research process that begins with the conceptualization of ideas and the planning of a study moves through the phases of data collection and analysis and then explains how findings might be represented in various ways to different audiences. Ethical issues are also explored in detail as well as the ways that the goodness of qualitative research might be judged by its consumers. The book is based on the view that researchers need to make principled informed and strategic decisions about what why when and how to use qualitative forms of inquiry. The nature of qualitative research is explained in terms of both its core assumptions and what practitioners actually do in the field when they collect data and subject it to analysis. Each chapter is vividly illustrated with cases and examples from published research to demonstrate different qualitative approaches in action and their relative strengths and weaknesses. The book also extends the boundaries of qualitative research by exploring innovative contemporary methodologies and novel ways to report research findings. *Qualitative Research Methods in Sport Exercise and Health* is essential reading for any student researcher or professional who wishes to understand this form of inquiry and to engage in a research project within a sport exercise or health context.

**Groupwork Practice for Social Workers** Karin Crawford, Marie Price, Bob Price, 2014-12-01 Working with families carers groups and communities is something all social work students must prepare for. Written to guide you through these varied and complex groupwork situations this book explores the knowledge skills and values required for groupwork practice. Divided into two parts the first provides an understanding of groupwork its concepts and contexts while the second takes you step by step through groupwork practice from planning and preparation to starting out facilitating and finally ending work with a group. Different service contexts including work with children with users who have learning disabilities in mental health settings and more are covered throughout the book with case studies activities and reflective opportunities helping you to understand the complexities of these contexts.
