How Grammaticalization Processes Create Grammar:

Handbook of Cognitive Linguistics Ewa Dabrowska, Dagmar Divjak, 2015-05-19 Cognitive Linguistics is an approach to language study based on the assumptions that our linguistic abilities are firmly rooted in our cognitive abilities that meaning is essentially conceptualization and that grammar is shaped by usage The Handbook of Cognitive Linguistics provides state of the art overviews of the numerous subfields of cognitive linguistics written by leading international experts which will be useful for established researchers and novices alike It is an interdisciplinary project with contributions from linguists psycholinguists psychologists and computer scientists which will emphasise the most recent developments in the field in particular the shift towards more empirically based research In this way it will we hope help to shape the field encouraging methodologically more rigorous research which incorporates insights from all the cognitive sciences Editor Ewa Dabrowska was awarded the Alexander von Humboldt Professorship 2018

Cognitive Linguistics - Key Topics Ewa Dabrowska, Dagmar Divjak, 2019-07-08 The key topics discussed in this book illustrate the breadth of cognitive linguistic research and include semantic typology space fictive motion argument structure constructions and prototype effects in grammar New themes such as individual differences emergence and default non salient interpretations also receive coverage

Grammaticalization and Language Change Kristin Davidse, Torsten Leuschner, 2012 This collective volume focuses on the latest developments in the study of grammaticalization and related processes of change such as degrammaticalization constructionalization lexicalization and petrification It addresses topical issues relating to the motivations sources defining features and outcomes of these changes New theoretical reflections are offered on the pragmatic motivation of grammaticalization paths process oriented differences between grammaticalization lexicalization and degrammaticalization the question of gradualness and pace of grammaticalization and deictics as a distinct source of grammaticalization The articles describe various constructional and distributional changes affecting deictics determiners reflexives clitics nouns affixes adverbs and auxiliary verbs mainly in the Germanic and Romance languages The volume will be of great interest to historical linguists working on grammaticalization and related changes and to all linguists working on the interface between morphosyntax semantics pragmatics and discourse

The Genesis of Grammar Bernd Heine, Tania Kuteva, 2007-10-04 This book reconstructs what the earliest grammars might have been and shows how they could have led to the languages of modern humankind It considers whether these languages derive from a single ancestral language what the structure of language was when it first evolved and how the properties associated with modern human languages first arose

Language, Usage and Cognition Joan Bybee, 2010-04-01 Language demonstrates structure while also showing considerable variation at all levels languages differ from one another while still being shaped by the same principles utterances within a language differ from one another while exhibiting the same structural patterns languages change over time but in fairly regular ways This book focuses on the dynamic processes that create languages and give them their

structure and variance It outlines a theory of language that addresses the nature of grammar taking into account its variance and gradience and seeks explanation in terms of the recurrent processes that operate in language use The evidence is based on the study of large corpora of spoken and written language what we know about how languages change as well as the results of experiments with language users The result is an integrated theory of language use and language change which has implications for cognitive processing and language evolution The Limits of Grammar Rodney Charles Johnson,1992

Pragmatics, Subjectivity and the Grammaticalization of the English Perfect Kathleen Carey,1994 **Studies in Language** ,2009 *Language Contact and Contact Languages* Peter Siemund,Noemi Kintana,2008 This new volume on language contact and contact languages presents cutting edge research by distinguished scholars in the field as well as by highly talented newcomers It has two principal aims to analyze language contact from different perspectives notably those of language typology diachronic linguistics language acquisition and translation studies and to describe explain and elaborate on universal constraints on language contact The individual chapters offer systematic comparisons of a wealth of contact situations and the book as a whole makes a valuable contribution to deepening our understanding of contact induced language change With its broad approach this work will be welcomed by scholars of many different persuasions Selected Proceedings of the 9th Hispanic Linguistics Symposium Nuria Sagarra,Almeida Jacqueline Toribio,2006 This volume contains 30 papers selected from two conferences which were held jointly at the Pennsylvania State University in 2005 the 9th Hispanic Linguistics Symposium and the 8th Conference on the Acquisition of Spanish and Portuguese as First and Second Languages The papers are organized into sections on theoretical syntax phonetics and phonology second language acquisition and teaching acquisition of syntax and sociolinguistics **From Interaction to Grammar** Leelo Keevallik,2003 This is a Ph D dissertation This study contributes to the research tradition of interactional linguistics It demonstrates how interactional patterns and sequences of actions are or emerge as part of the syntagmatic structure of a language and why th
