Journal of Nonparametric Statistics, 1991 *Nonparametric Statistics* Ricardo Cao, Wenceslao González Manteiga, Juan Romo, 2016-09-12 This volume collects selected peer reviewed contributions from the 2nd Conference of the International Society for Nonparametric Statistics ISNPS held in C diz Spain between June 11 16 2014 and sponsored by the American Statistical Association the Institute of Mathematical Statistics the Bernoulli Society for Mathematical Statistics and Probability the Journal of Nonparametric Statistics and Universidad Carlos III de Madrid The 15 articles are a representative sample of the 336 contributed papers presented at the conference They cover topics such as high dimensional data modelling inference for stochastic processes and for dependent data nonparametric and goodness of fit testing nonparametric curve estimation object oriented data analysis and semiparametric inference The aim of the ISNPS 2014 conference was to bring together recent advances and trends in several areas of nonparametric statistics in order to facilitate the exchange of research ideas promote collaboration among researchers from around the globe and contribute to the further development of the field The International Conference on Recent Trends and Directions in Nonparametric Statistics Michael G. Akritas, 2004 *Nonparametric Statistics* Michele La Rocca, Brunero Liseo, Luigi Salmaso, 2020-11-11 Highlighting the latest advances in nonparametric and semiparametric statistics this book gathers selected peer reviewed contributions presented at the 4th Conference of the International Society for Nonparametric Statistics ISNPS held in Salerno Italy on June 11 15 2018 It covers theory methodology applications and computational aspects addressing topics such as nonparametric curve estimation regression smoothing models for time series and more generally dependent data varying coefficient models symmetry testing robust estimation and rank based methods for factorial design It also discusses nonparametric and permutation solutions for several different types of data including ordinal data spatial data survival data and the joint modeling of both longitudinal and time to event data permutation and resampling techniques and practical applications of nonparametric statistics The International Society for Nonparametric Statistics is a unique global organization and its international conferences are intended to foster the exchange of ideas and the latest advances and trends among researchers from around the world and to develop and disseminate nonparametric statistics knowledge The ISNPS 2018 conference in Salerno was organized with the support of the American Statistical Association the Institute of Mathematical Statistics the Bernoulli Society for Mathematical Statistics and Probability the Journal of Nonparametric Statistics and the University of Salerno *Special Issue: Papers Inspired by the Workshop 'Nonparametric Statistics: Refined, Redefined, and Renewed'* Edgar Brunner, 2010 *Nonparametric Statistics on Manifolds and Their Applications to Object Data Analysis* Victor Patrangenaru, Leif Ellingson, 2015-09-18 A New Way of Analyzing Object Data from a Nonparametric Viewpoint *Nonparametric Statistics on Manifolds and Their Applications to Object Data Analysis* provides one of the first thorough treatments of the theory and methodology for analyzing data on manifolds It also presents in depth applications to

practical problems arising in a variety of fields

All of Nonparametric Statistics Larry Wasserman, 2006-09-10 There are many books on various aspects of nonparametric inference such as density estimation nonparametric regression bootstrapping and wavelets methods But it is hard to find all these topics covered in one place The goal of this text is to provide readers with a single book where they can find a brief account of many of the modern topics in nonparametric inference The book is aimed at master's level or Ph D level statistics and computer science students It is also suitable for researchers in statistics machine learning and data mining who want to get up to speed quickly on modern nonparametric methods My goal is to quickly acquaint the reader with the basic concepts in many areas rather than tackling any one topic in great detail In the interest of covering a wide range of topics while keeping the book short I have opted to omit most proofs Bibliographic remarks point the reader to references that contain further details Of course I have had to choose topics to include and to omit the title notwithstanding For the most part I decided to omit topics that are too big to cover in one chapter For example I do not cover classification or nonparametric Bayesian inference The book developed from my lecture notes for a half semester 20 hours course populated mainly by master's level students For Ph D

Guide to Information Sources in Mathematics and Statistics Martha A. Tucker, Nancy D. Anderson, 2004-09-30 This book is a reference for librarians mathematicians and statisticians involved in college and research level mathematics and statistics in the 21st century We are in a time of transition in scholarly communications in mathematics practices which have changed little for a hundred years are giving way to new modes of accessing information Where journals books indexes and catalogs were once the physical representation of a good mathematics library shelves have given way to computers and users are often accessing information from remote places Part I is a historical survey of the past 15 years tracking this huge transition in scholarly communications in mathematics Part II of the book is the bibliography of resources recommended to support the disciplines of mathematics and statistics These are grouped by type of material Publication dates range from the 1800s onwards Hundreds of electronic resources some online both dynamic and static some in fixed media are listed among the paper resources Amazingly a majority of listed electronic resources are free
