Two Thousand Years in Dendi, Northern Benin ,2018-10-16 In *Two Thousand Years in Dendi Northern Benin* an international team examines a little known part of the Niger River valley West Africa over the longue durée This area known as Dendi has often been portrayed as the crossroads of major West African medieval empires but this understanding has been based on a small number of very patchy historical sources Working from the ground up from the archaeological sites standing remains oral traditions and craft

Proceedings of the 4th International Congress of the Archaeology of the Ancient Near East, 29 March - 3 April 2004, Freie Universität Berlin Hartmut Kühne, Rainer Maria Czichon, Florian Janoscha Kreppner, 2008 The Congress hosted 611 registered participants from 38 countries Its aim was to be an international forum for scholars and demands of Near Eastern Archaeology From the four sections of the Congress Vol I 1 The Reconstruction of Environment Natural Resources and Human Interrelation through Time 2 Visual Communication ISBN 978 3 447 05703 5 Vol II 3 Social and Cultural Transformation The Archaeology of Transitional Periods and Dark Ages 4 Archaeological Field Reports Excavations Surveys Conservation Together these volumes unite 77 contributions on about 1100 pages They are arranged according to the sections The first three will be introduced by the key lectures which were given by Tony Wilkinson Winfried Orthmann and Roger Matthews The resumes of these sections were provided by Wendy Matthews Dominik Bonatz and Diederik J W Meijer The contributions cover many aspects of the main themes through time from the Neolithic to the Hellenistic Roman period and offer interdisciplinary approaches to complex archaeological problems **From Justinian to Branimir** Danijel Džino, 2020-10-25 From Justinian to Branimir explores the social and political transformation of Dalmatia between c 500 and c 900 AD The collapse of Dalmatia in the early seventh century is traditionally ascribed to the Slav migrations However more recent scholarship has started to challenge this theory looking instead for alternative explanations for the cultural and social changes that took place during this period Drawing on both written and material sources this study utilizes recent archaeological and historical research to provide a new historical narrative of this little known period in the history of the Balkan peninsula This book will appeal to scholars and students interested in Byzantine and early medieval Europe the Balkans and the Mediterranean It is important reading for both historians and archaeologists The Intangible Elements of Culture in Ethnoarchaeological Research Stefano Biagetti, Francesca Lugli, 2016-06-02 This volume focuses on the intangible elements of human cultures whose relevance in the study of archaeology has often been claimed but rarely practiced In this book the authors successfully show how the adoption of ethnoarchaeological perspectives on non material aspects of cultures can support the development of methodologies aimed at refining the archaeological interpretation of ancient items technologies rituals settlements and even landscape The volume includes a series of new approaches that can foster the dialogue between archaeology and anthropology in the domain of the intangible knowledge of rural and urban communities The role of ethnoarchaeology in the study of the intangible heritage is so far largely underexplored and there is a

considerable lack of ethnoarchaeological studies explicitly focused on the less tangible evidence of present and past societies Fresh case studies will revitalize the theoretical debate around ethnoarchaeology and its applicability in the archaeological and heritage research in the new millennium Over the past decade intangible has become a key word in anthropological research and in heritage management Archaeological theories and methods regarding the explorations of the meaning and the significance of artifacts resources and settlement patterns are increasingly focusing on non material evidence Due to its peculiar characteristics ethnoarchaeology can effectively foster the development of the study of the intangible cultural heritage of living societies and highlight its relevance to the study of those of the past *Baal*, 2006 **Trübner's Bibliographical Catalogues** Kegan Paul, Trench, Trubner & Co, 1925 **Mellanges de l'Universite Saint-joseph** Université Saint-Joseph (Beirut, Lebanon), 1975 Ecology of Cyanobacteria II Brian A.
