*Quicklet on Brad Steiger and Sherry Steiger's Conspiracies and Secret Societies* Jason Stewart,2012-03-02 ABOUT THE BOOK Since the mid twentieth century popular media and culture has become more and more focused on vast conspiracies which surround the average person Many of these theories revolve around the belief that strange and sometimes threatening forces are in control of events and decisions made by governments business leaders and even entertainment figures The term conspiracy theory has entered the mainstream mindset Some use conspiracy theory as a derogatory label to characterize theories as absurd while others see the label as a point of insight and wonder In their book *Conspiracies and Secret Societies* Brad and Sherry Steiger have set out to document and briefly explain the majority of these theories as well as cataloguing many of the reported actors alleged to be behind these activities With over 450 entries *Conspiracies and Secret Societies* claims to be the largest single volume every dedicated to subjects that by all accounts should remain secret MEET THE AUTHOR Jason Stewart is a Northern California based public relations marketing professional He holds degrees in Political Science and Comparative Religion When he s not writing or reading you can find him riding around with something radioactive in his trunk EXCERPT FROM THE BOOK Masonic Freemasons Originally a society of skilled craft workers formed in the 16th century to provide lodging and shelter for traveling workers Reportedly was reorganized into a religious based mystery system organization focused on achieving enlightenment through symbols and architecture Members are long rumored to have a secret perhaps sinister influence on world events and leaders The organization is also referred to as Masons Members of the freemasons are present today and proudly display their masonic allegiance The Knights Templar Order of Christian knights formed by the Catholic Church during the Crusades period The order were reportedly disbanded and its members excommunicated in 1312 The order is rumored to have survived disbanding and to have melded into such organizations as the Masonic Freemasons The group is also referred to as Templars The Illuminati Group of freethinkers and agnostics formed in Bavaria in 1776 The organization was reportedly banned throughout the Austrian Empire in 1785 Rumors persist that the group still exists and is working behind the scenes to create a New World Order The Illuminati are often confused with a separate secret society Masonic Freemasonry Buy a copy to keep reading **The Nation and the Athenaeum** ,1924 *The Nation and Athenæum* ,1924 *The Catholic Encyclopedia* Charles Herbermann,1912 **The Dark Side of Speech** Carlo Penco,2024-10-08 What is disinformation and why does it matter How can we understand and detect different kinds of disinformation With an analysis of relevant events of the period 2012 2022 the book attempts to

answer these questions The book is organized into four parts 1 The first part presents the notions of post truth and fake news using some of the most recent critical studies analyzing some typical examples and the environment in which some of them originated 2 The second part introduces the notion of conspiracy theory and describes the emergence of the idea of white supremacy and its ramifications together with the narratives developed during the COVID restrictions 3 The third part describes the emergence of the algorithms behind social networks and their role in propaganda making examples of US and European elections and the Brexit referendum An analysis of Cambridge Analytica shows the tip of an iceberg of disinformation that is spreading around the world Some remarks by comedians and philosophers help to give a new view on the concept of freedom of speech with particular attention to the more and more difficult freedom of the press 4 The fourth part gives some emergency tools for detecting disinformation at an individual level understanding the most hidden mechanisms of disinformation and the biases that almost unavoidably enter our minds These tools come from the results both of traditional theories and the most recent social philosophy of language not despising references to statistics This is a fundamental book for having a general survey of this period of political turmoil consulting a wide list of references and official documents and having a grasp of the means of intellectual self defense This book is non standard it relies on the most sophisticated theories of language and yet it gives everything in simple and colloquial language Differently from sophisticated analyses of linguistic phenomena it gives the feeling of participating in a tour around what happened in the last decade with a disenchanted eye that uses some results of the critical literature without compelling one to become a theoretician in the field of philosophy or critical analysis The hidden focus of the book is freedom of speech and freedom of thought and what they mean today in an era of more sophisticated and widespread disinformation permitted by the algorithms governing social networks
