More than 130 case descriptions are included in the unique cases section; the core of this collection represents 40 years of René Marti's personal experience in nonunion treatment, demonstrating the principle-technique-over-technology approach. The editors have also carefully selected additional cases contributed by several experts in nonunion treatment. Hundreds of full-color pictures, precise illustrations, and x-rays demonstrate the significant steps in nonunion treatment. In the principles preceding the case presentations, relevant information on evolution, basic science aspects, nonoperative treatment, bone graft, as well as infected nonunions is provided.
