**Emerging Trends in Technology for Education in an Uncertain World** Dwi Nanto, Maila Rahiem, Tita Maryati, 2021-12-24. Presently, people are facing a condition called VUCA (Volatility, Uncertainty, Complexity, and Ambiguity), where this condition is described as a turbulent, uncertain, complicated, and unclear condition. The world of work and industry is changing quickly, driven by the development of technology, information, and communication. Advances in computer technology, artificial intelligence, and robotics, which is also called as the industrial revolution 4.0 era, are of significant influence on the environment and people. A time where humans must learn quickly and an era where the future is unpredictable, where choices for various conditions are increasing and mindsets are changing. The big challenge for educational institutions, especially Islamic educational institutions today, is how to prepare young people on various aspects of cognitive, mental, and spiritual preparedness to face the changing environment. Development in the real world is far more complex than what is learned in the classroom, so it is necessary to educate and transform curriculum that is directed in accordance with the demands of present times. The 6th International Conference on Emerging Trends in Technology for Education in Facing VUCA (Volatility, Uncertainty, Complexity, and Ambiguity) is designed not only to share research but also to offer recommendations to governments, educational institutions, and other stakeholders to improve the quality of education through technology-based educational programs. The conference was held by the Faculty of Education, UIN Syarif Hidayatullah Jakarta. Scholars, researchers, policy makers, teachers, and students from various countries participated and worked together to discuss how to improve the quality of education in the Muslim community. Guided by UIN Jakarta, the 6th ICEMS of 2020 provided opportunities for various educational stakeholders, especially in Muslim Communities around the world, to share their creative and innovative works, opinions, and experiences in open academic forums.

**Reaching the Marginalized**, 2010-01-01. Children at risk of marginalization in education are found in all societies. At first glance, the lives of these children may appear poles apart. The daily experiences of slum dwellers in Kenya, ethnic minority children in Viet Nam, and a Roma child in Hungary are very different. What they have in common are missed opportunities to develop their potential, realize their hopes, and build a better future through education. A decade has passed

since world leaders adopted the Education for All goals While progress has been made millions of children are still missing out on their right to education Reaching the marginalized identifies some of the root causes of disadvantage both within education and beyond and provides examples of targeted policies and practices that successfully combat exclusion Set against the backdrop of the global economic crisis The Report calls for a renewed financing commitment by aid donors and recipient governments alike to meet the Education for All goals by 2015 This is the eighth edition of the annual EFA Global Monitoring Report The Report includes statistical indicators on all levels of education in more than 200 countries and territories *World Youth Report* ,2004 *State of the Urban Youth* ,2010 **EFA Global Monitoring Report** ,2010
