In this activist participatory study, you'll get a day in the life, look at 44 pairs of cross-sexual men's friendships, and see what helps them negotiate the terrain of their emotional, sexual, psychological, and social differences in today's climate of often publicly defended homophobia and heterosexism. *Navigating Differences* succeeds in bringing the true picture of cross-sexual men's relationships to you regardless of your personal orientation or political affiliation. You'll find information straight from the lives of the study's participants that shows you how different sexual orientations impact the way men spend time together, maintain friendships, cope with sexual struggles, and open good communication channels. Most importantly, you'll get detailed facts and feedback concerning hegemonic masculinity, embracing, struggling with, and ignoring differences, group demographic characteristics, embeddedness, and emotional communication, outness in groups, out groups, and reference groups. Hearsay and prejudice might claim to know what gay and straight men think of each other, but *Navigating Differences* replaces rumors with research and shows you what really keeps gay and straight men in lasting friendships in all arenas of life. You'll learn firsthand what it takes to overcome differences and what it means to turn difference into meaningful relationships.
