Ramadan 2019:

Handbook of Research on Cultivating Literacy in Diverse and Multilingual Classrooms Neokleous, Georgios, Krulatz, Anna, Farrelly, Raichle, 2020-03-27 Literacy has traditionally been associated with the linguistic and functional ability to read and write. Although literacy as a fundamental issue in education has received abundant attention in the last few decades, most publications to date have focused on monolingual classrooms. Language teacher educators have a responsibility to prepare teachers to be culturally responsive and flexible so they can adapt to the range of settings and variety of learners they will encounter in their careers while also bravely questioning the assumptions they are encountering about multilingual literacy development and instruction. The Handbook of Research on Cultivating Literacy in Diverse and Multilingual Classrooms is an essential scholarly publication that explores the multifaceted nature of literacy development across the lifespan in a range of multilingual contexts. Recognizing that literacy instruction in contemporary language classrooms serving diverse student populations must go beyond developing reading and writing abilities, this book sets out to explore a wide range of literacy dimensions. It offers unique perspectives through a critical reflection on issues related to power, ownership, identity, and the social construction of literacy in multilingual societies. As a resource for use in language teacher preparation programs globally, this book will provide a range of theoretical and practical perspectives while creating space for pre- and in-service teachers to grapple with the ideas in light of their respective contexts. The book will also provide valuable insights to instructional designers, curriculum developers, linguists, professionals, academicians, administrators, researchers, and students.

The Political Economy of Egyptian Media Maher Hamoud, 2023-06-01 A political economy of the post-2011 Egyptian media landscape including interviews.

Muslim Empowerment in Ghana Holger Weiss, 2024-07-22 This book is the first groundwork on Muslim NGOs in contemporary Ghana. It builds upon a database of more than 600 Muslim non-profit associations, foundations, and grass roots organisations whose activities are traced through extensive use of social media. The first part of the book scrutinises the varieties of their activities and operational spaces, their campaigns, and target groups alongside their local, regional, national, and international connections. The second part analyses contemporary debates on infaq, sadaqa, waqf, and zakat, as well as Islamic banking and micro-finance schemes for promoting social welfare among Muslim communities in Ghana.

Routledge Handbook on Arab Media Nouredine Miladi, Noha Mellor, 2020-11-29 This handbook provides the first comprehensive reference book in English about the development of mass and social media in all Arab countries. Capturing the historical as well as current developments in the media scene, this collection maps the role of media in social and political movements. Contributors include specialists in the field from North America, Europe, and the Middle East. Each chapter provides an overview of the history, regulatory frameworks, and laws governing the press and socio-political functions of the media. While the geopolitical complexities of the region have been reflected in the expert analyses, collectively the focus is always the local context of each member state. All 38 chapters consider the specific historical, political,

and media trajectories in each country to provide a contextual background and foundation for further study about single states or comparative analysis in two or more Arab states Capturing significant technological developments and the widespread use of social media this all inclusive volume on Arab media is a key resource for students and scholars interested in journalism media and Middle East studies [Mediating the Uprising](#) Rebecca Joubin,2020-05-15 Based on intensive fieldwork in Damascus and Beirut Mediating the Uprising shows how gender and marriage metaphors inform Syrian television drama with various forms of cultural and political critique The emergence of these suppressed narratives attests to the survival of the genre despite instability war and bloodshed **Forest Fungi** Ahmed M.
