Diverse histories and cultures are considered of major importance as well as issues of critical social justice. *Transmediation in the Classroom* Ladislaus Semali, 2002 Annotation Semali education Penn State U provides an introduction to 11 contributions on various ways of understanding how transmediation, the translation and manipulation of sign systems and symbols moving from one type of language to another, can be a framework for teaching and learning in the language arts. Such ideas are a challenge to conventional language teaching methods and to current emphasis on testing. Annotation c Book News Inc Portland OR booknews.com Digital Citizenship Education Divina Frau-Meigs, Brian O'Neill, Alessandro Soriani, Vitor Tomé, Janice Patricia Richardson, Elizabeth Milovidov, 2017 Most young people in Europe today were born and have grown up in the digital era. Education authorities have the duty to ensure that these digital citizens are fully aware of the norms of appropriate behaviour when using constantly evolving technology and participating in digital life. Despite worldwide efforts to address such issues, there is a clear need for education authorities to take the lead on digital citizenship education and integrate it into school curricula. In 2016 the Education Department of the Council of Europe began work to develop new policy orientations and strategies to help educators face these new challenges and to empower young people by helping them to acquire the competences they need to participate actively and responsibly in digital society. This volume, the first in a Digital Citizenship Education series, reviews the existing academic and policy literature on digital citizenship education, highlighting definitions, actors and stakeholders, competence frameworks, practices, emerging trends and challenges. The inclusion of a wide selection of sources is intended to ensure sufficient coverage of what is an emergent topic that has yet to gain a strong foothold in either education or academic literature but has received wider policy attention. **Empowerment Through Media Education** Ulla Carlsson, 2008 **Youth, Identity, and Digital Media** David Buckingham, 2008 The contributors explore how young
