*Supply Chain Risk Management. How IT tools can help making supply chains resilient* Johannes Euler, 2017-03-09 Seminar paper from the year 2017 in the subject Business economics Supply Production Logistics grade 1.0 Reutlingen

University language English abstract Driven by a high intensity of competition modern companies have put much effort into reducing costs in their supply chain Two important trends on the way to achieving that goal are globalization and lean management Both have led to complex highly distributed supply chains and low buffer stocks Indeed these mechanisms brought lower costs but at the same time an increase of vulnerability and risk in modern supply chains Unexpected disruptions in supply chains can cause a huge impact on businesses such as high financial expenses and supply delays on the short term but also negative brand reputation and falling investor confidence on the long term This is why the implementation of the approaches supply chain risk management SCRM and business continuity management BCM has become crucial in the sphere of top level management Digitization is another disruptive trend within the present economic system The volume of available data for businesses has been increasing exponentially in the last years But at the same time most companies have failed using these data essential in decision making process These unused data offer great potential With Big Data Analytics they could turn companies supply chain risks into a competitive advantage This case study deals in virtue of the quote from JFK with the research question How can IT tools support companies making their supply chains resilient To this effect the first chapter describes key risks in modern supply chain in order to create a general awareness of the scope of SCRM and BCM approaches The next chapter then compares two common supply chain strategies with a focus on resilience in order to evaluate the proposed solution at the end of this case study Thereupon Chapter 4 answers the research question of this case study by comprising the key components of the SCRM solution DHL Resilience 360 The last chapter evaluates the proposed solution based on the output of Chapter 3 on the one hand and on own practical considerations on the other hand

Staff Management in Library and Information Work Peter Jordan, Noragh Jones, 1995 Recent research has been drawn upon throughout to fully revise this volume especially in the areas of staff motivation job satisfaction and workforce planning Of particular note are the many new examples featured of documentation now used by libraries particularly in the coverage of job descriptions recruitment staff selection and staff appraisal All topics highlighted by the changed Library Association requirements for achievement of its qualifications are covered and the chapter on staff appraisal has been completely re written to take account of the great progress made in libraries and information units since the last edition The section on staff supervision and interpersonal skills training has been reorganized and now encompasses time management conflict management and the management of stress With these new features bringing the book up to date it remains an indispensable guide for all library and information centre professionals and all those involved with the supervision and management of library and information staff

*Human Nature and Management* Ordway Tead, 1929
